SHIPPING & WATERFRONT NEWS

BIG FREIGHTERS NOW NEARING PORT

A number of big cargo carriers from opposite points in the Pacific are approaching Honolulu. They are expected to call here in a fortnight.

Leaving New York with a big general cargo for the coast of Asia, the British steamer Indradeo, the first vessel in the India line service to make the Hawaiian Islands, is steaming from Panama canal to receive a supply of bunker coal. The vessel should make port about February 19.

From the Philippines, China and Japan the steamer Indra, with a shipment of copra, hemp and Oriental freight for the east coast of the United States is expected at Honolulu on February 20. The Indra will be coaled and lose no time in continuing the voyage to Panama.

The first Russian steamer to visit the port in many months is due with the arrival of the Baron Gleason about February 12. The vessel is understood to belong to the Russian Volunteer Fleet Association, which has recently inaugurated a service from Vladivostok to British Columbian ports. This vessel will call here for coal.

Lurline Delayed by Storm.
The Matson steamer Lurline from San Francisco, due here tomorrow morning, has been delayed by storm. Castle & Cooke have been advised by wireless that the Lurline may arrive off port on Wednesday afternoon. The vessel was late in leaving the Coast with a score of cabin passengers and a large general cargo. The bulk of the late mainland mail was given to the Oceanic steamer Sierra.

Marine Underwriters Suffer.
The heavy losses at sea during the past year, apart from those due to the war, have made 1914 a somewhat bad year for marine underwriters, according to advices received by the marine department of the Chamber of Commerce. The year's greatest marine insurance loss was in connection with the sinking of the Canadian Pacific line steamship Empress of Ireland by the Norwegian collier Storstad in the St. Lawrence river. The loss of the Empress of Ireland is practically total. Salvors have been working on the vessel and have recovered \$140,000 in silver bullion. For this work the wreckers have demanded \$120,000 compensation, so that the underwriters will receive but little benefit from the bullion recovered.

The sinking of the Empress of Ireland hit American underwriters alone to the extent of over \$1,500,000. The second big loss came when the British steamer Floristan was wrecked on Guion island, St. Lawrence, on October 14, and a month later was abandoned to the underwriters as a total loss. The Floristan carried a cargo valued at \$300,000. In the case of this vessel the underwriters suffered a double loss. The vessel first went ashore and was floundered. This brought a general average loss to the underwriters. Subsequently the vessel again stranded, proving a total loss.

Strathgarry Gets Paying Charter.
The British steamer Strathgarry was chartered at Portland at the record equal rate of 45 shillings for delivery of grain from that port, the name of the charter party being withheld. The Strathgarry was at Honolulu recently. She may be the last steamer to be chartered this season, as tonnage en route here now is thought to be ample to care for the available grain by exporters.

Electricity Dances on Masts.
"Corpse Candles," the eerie lights that sometimes play about the spars of ships at sea, were seen for the first time off the Pacific coast for many years by Capt. Bunn and the crew of the schooner W. G. Irwin, which came into San Francisco recently. At the time the schooner was in a smooth sea and sailing with a light breeze off Point Arena. There was a flash of lightning and then the crossbeams and gaffs on all three masts began to spurt little blue lights. The electrical phenomenon lasted for half an hour and was followed by a terrific gale.

New Canal Cable Address.
Official notice has been issued by the Panama canal commission to the shipping interests regarding the new cable address to be used in the future. If a cable is sent to the canal zone relative to any of the canal shipping the following address must be used: "Isthmian, Balboa Heights." In event of the shipper wishing to transact Panama canal ship business with the canal officials at Washington the address must be as follows: "Isthmian, Washington, D. C." Shippers have been requested to use the correct addresses in the future.

The Ford Motor Co. is reported to be negotiating with the Stevens-Duryea Automobile Co. for the purchase of that company's plant at East Springfield, Mass.

The Italian government has signed contracts with an East St. Louis, Ill., firm for the delivery of 8000 war horses. None of the horses is to be white.

A crowd of 1000 gathered around Lipo Chokin, a Russian, when he began giving away \$20 bills in William burg. He had \$285 left when arrested.

HARBOR NOTES

The Pacific Mail steamer Siberia, leaving the mainland for Asia, will call here Friday.

The Matson steamer Hilonian was reported discharging freight at Kahuhi on Saturday.

Two thousand tons of oriental merchandise will be discharged from the Pacific Mail steamer Manchuria.

The schooner Oceania Vance is reported to have arrived at Port Allen to discharge a cargo of lumber.

The Inter-Island steamer Mauna Loa will take a large list of passengers to Kona and Kau ports at noon tomorrow.

The Pacific Mail liner Manchuria, expected to depart for the coast tomorrow, will carry the next mail to the mainland.

More than 100 cabin passengers are now booked for San Francisco in the Matson liner Matsunia, to leave at 10 o'clock Wednesday morning.

Included in the freight brought by the steamer Kinai from Kaula was about 7000 sacks of sugar. The vessel met strong north winds and heavy seas.

About 2000 sacks of Molokai sugar was today discharged from the steamer Mikahala. The vessel is scheduled to leave for regular ports at 5 o'clock tomorrow evening.

With provisions and supplies alleged as destined for Ocean Island, the Japanese steamer Tsurigisan Maru departed Saturday afternoon. More than 4000 tons of Japanese coal was left here.

The steamer Claudine, from Maui to Honolulu, met with much rough weather. The vessel has been discharged of a small general cargo, preparatory to leaving for Kahuhi at 5 o'clock this evening.

Bringing a number of military passengers for the various military organizations on Oahu, the United States army transport Thomas from San Francisco is due at Honolulu on Friday. The vessel will be given a prompt despatch to Manila by way of Guam.

Delayed by rough weather and the difficulty met in loading sugar, the Matsunia returned to Honolulu from Hilo this morning. The vessel will complete 5000 tons of sugar and island products at this port. It will steam for San Francisco at 10 o'clock Wednesday.

The American-Hawaiian freighter Virginian has completed a voyage from Seattle to Honolulu in a little less than 10 days. The steamer will leave about 3000 tons of cargo at island ports before loading 11,000 tons of sugar for delivery at the east coast of the United States. Capt. J. B. Hall reported seven days of exceedingly rough weather. The Virginian met with no damage.

Flaurence Ward Brought no Cargo.
The Commercial Pacific Cable schooner Flaurence Ward has returned from a special trip to Fanning island, bringing a few packages of freight. The vessel was not supplied with a shipment of copra from the South Sea estates conducted by Armstrong & Armstrong. Captain George Plitz, master, reports meeting with considerable rough weather in approaching the Hawaiian Islands. The vessel left Fanning island on January 25. Two operators from the British cable station were brought to Honolulu, where they will tranship to a steamer for the Coast.

Kinai for Kauai Trip.
The steamer Kinai, instead of the Kilauea, will be chartered for the Kauai excursion, which is being engineered by the outdoor committee of the Hawaii Promotion Committee. The booking is lighter than was at first expected, and the Kinai will provide accommodations for all. The excursion starts next Friday evening, the tourists to return Monday morning early.

Hilonian for the Coast With Sugar.
Taking more than 3300 tons of sugar gathered at several island ports, the Matson Navigation steamer Hilonian departed from Hilo for San Francisco yesterday. The vessel met with some delay in receiving the product because of rough weather.

Francis Hanify Due Tomorrow.
To make its initial appearance at Honolulu, the new freight steamer Francis Hanify, under charter to the Matsun Navigation Company, is due tomorrow morning. The Francis Hanify left San Francisco with a quantity of general cargo. At San Diego 1000 tons of fertilizer was placed on board for delivery at an island port. The steamer will bring distillate and gasoline and call at all regular island ports to take sugar for Coast refineries.

Matsunia Will Take Big Cargo.
A large shipment of island sugar will be forwarded to the California coast in the Matson steamer Matsunia. The vessel returned from Hilo this morning after having received 2400 tons of the product. At Honolulu 4300 tons of sugar will be loaded. In addition to sugar the Matsunia will be given consignments of pine, coffee, hides, honey and sundries. A big list of outgoing passengers have been booked for San Francisco at the agency of Castle & Cooke.

The French bark Versailles, Capt. Nedellec, which arrived in San Francisco recently, 165 days from Rotterdam, had a very stormy and unusual voyage. Off Cape Horn, in a terrific southwest blow, the windjammer lost half a dozen sails and two of her boats were smashed and carried overboard by heavy boarding seas. The main hatch was also damaged by the tremendous weight of water. In latitude 56 degrees 60 minutes south longitude 67 degrees 73 minutes west, Capt. Nedellec reported that he saw nine icebergs. The Versailles made the run from the Cape to San Francisco in 53 days, encountering several bad blows up to the day she arrived off the Golden Gate, when a north-west squall claimed three sails as tribute.

THREE EYES
Cannot possibly be found exactly alike in every particular. Especially is this true of defective eyes—eyes needing glasses. Even a different measurement in the two eyes is quite common. One eye may be perfect and the other short-sighted; or they may have different degrees of the same defect, or a different defect. Is it any wonder then, you "have never found a glass you could see through?" Try us—we'll find you a glass if you need it; if not we'll tell you so.
